ENRATECH IT CONSULTANCY LTD
COMPANY PROFILE

JULY 14, 2025

ENRATECH IT CONSULTANCY
Providing Sustainable IT Services

Delivering sustainable and reliable IT infrastructure solutions that empower businesses and organizations to achieve digital excellence.

Established in 2014 *as an IT company to aid companies without IT staffing, the only constant thing between 2014 and the present day has been the dream to provide sustainable IT services, and now finally that has succumbed to progress with its being the back born and growth of the company and its clients*

Enratech IT Consultancy LTD

Company History

In 2014, Job Olengor founded an IT company aimed at assisting businesses lacking IT expertise. giving birth to Enra-tech IT Consultancy Ltd.

From its inception to the present day, one unchanging aspiration has driven this company to provide sustainable IT services. Today, that dream has transformed into the backbone of both our company and our clients.

2014

Founded with the mission to provide sustainable IT services to companies without in-house technical expertise.

2015

Undertook extensive network installations for **WildPlaces Africa Lodges**, including projects at **Apoka Lodge (Kidepo National Park)**, **Semliki Lodge**, and **Clouds Mountain Gorilla Lodge**, improving connectivity and guest experience.

2016-2017

The team designed and implemented a network installation infrastructure for communication and internet availability in Nkusi Small Hydro Power plant (lake Albert 2017)

2018

Network installation at WildPlaces Africa Lodge Apoka Kidapo National Park, semliki lodge and Clouds lodge to improve internet reception within the lodge .

2020

We expanded our client base and crafted diverse systems and websites for various purposes, contributing significantly to our overall growth

2022-23

Expanded our services by developing customized software and websites for businesses across various sectors, enhancing digital presence and automation.
